Health History – use additional sheets if necessary

The health and safety of camp participants is a top priority of our staff. It is essential that the health history be accurate and complete. Should it be determined that this history is not accurate, ICAN reserves the right to dismiss the child from camp at the expense of the parents. Though every accommodation will be made to insure that a child is able to fully participate, some medical issues are beyond our capacity to handle. Any parent with a child who has medical issues that could severely impact participation should schedule an appointment with our staff to determine whether Leadership Camp is equipped to address the child's needs.
